

## Embracing Sustainable Development Goals (SDGs) at Our School

Dear Parents/Students

Greetings from Gujarat Public school, Chhani!!!

We are excited to announce that this year, our school will be fully embracing the United Nations **Sustainable Development Goals (SDGs)** as part of our educational curriculum. The SDGs serve as a blueprint for a better and more sustainable future for all, addressing global challenges such as poverty, inequality, climate change, environmental degradation, peace, and justice.

With a firm commitment to contributing towards the achievement of these goals by 2030, we have structured our academic year around various themes related to the SDGs. Each month, we will focus on one specific SDG, engaging in a range of activities aimed at raising awareness and promoting action.

With the help of our proud and generous parents, we could organise a donation drive to poor and needy people on January and February and could complete **SDG 01: No Poverty**.

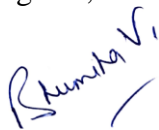

**For the month of April, our spotlight is on SDG 15: Life on Land.** Throughout April, our school will be organizing a series of activities centered around SDG 15, designed to educate and inspire our students to become stewards of the environment. These activities may include tree planting, wildlife conservation projects, nature walks, and more.

By immersing ourselves in the principles and practices of sustainability, we aim to instill in our students a deep understanding of their roles and responsibilities as global citizens. Together, we can work towards creating a world where people and our planet thrive in harmony.

We encourage everyone in our school community to actively participate in our SDG initiatives and join us on this journey towards a more sustainable future.

Thank you for your continued support and commitment to making a positive difference in the world.

Regards,

Ms. Bhumika Varma  
Principal.
